

**Not the Luck of the Irish, Murphy**

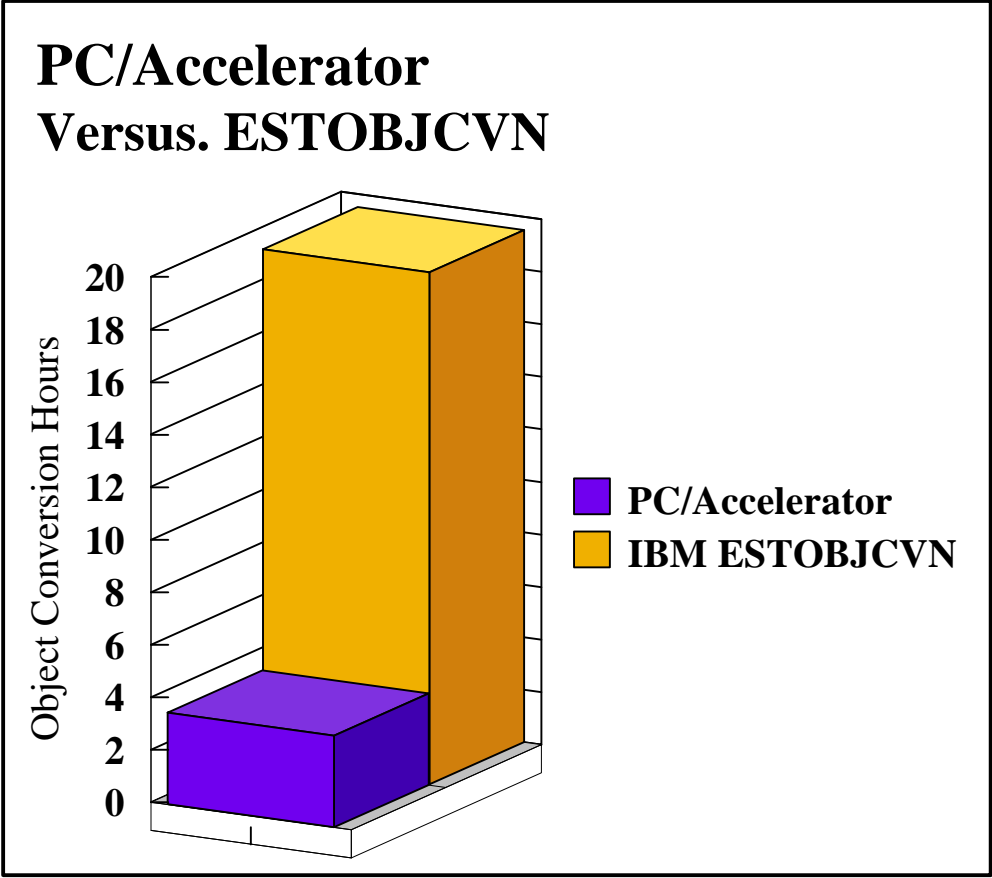

Object Conversion Hours

PC/Accelerator

3.5

IBM ESTOBJCVN

19.5

Murphy came to visit on 3/17/97 with disk failures, bad power supplies, loose cables and more. Problems caused a 32+ hour delay in the R-A-R upgrade. The above graph displays the actual amount of time it took PC/Accelerator to translate 14,152 programs/ 63,000+ members at Wolohan Lumber. Compare the amount of time Estimate Object Conversion calculated with PAE's method. PC/Accelerator saved the day saving 82% of conversion time or 16 hours. PC/Accelerator did not remove the problems, it eased the pain.

**Glad to see Murphy has moved on**
